A new concept of medical, multifunctional, reusable and aesthetic face masks Patent 060003

The New Mask Components

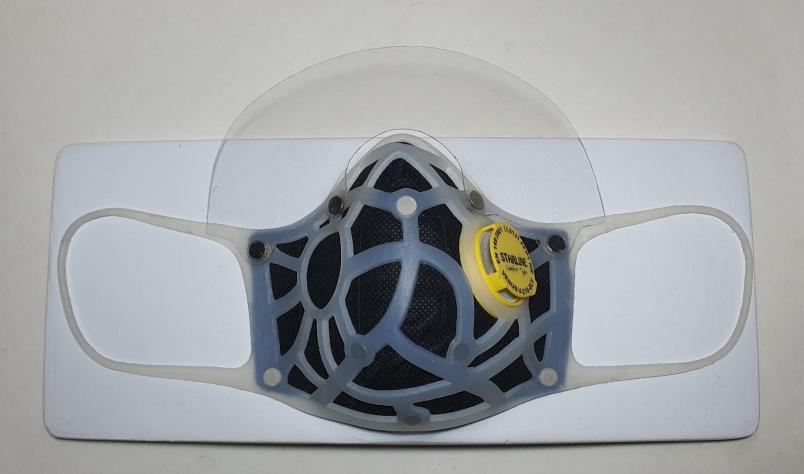

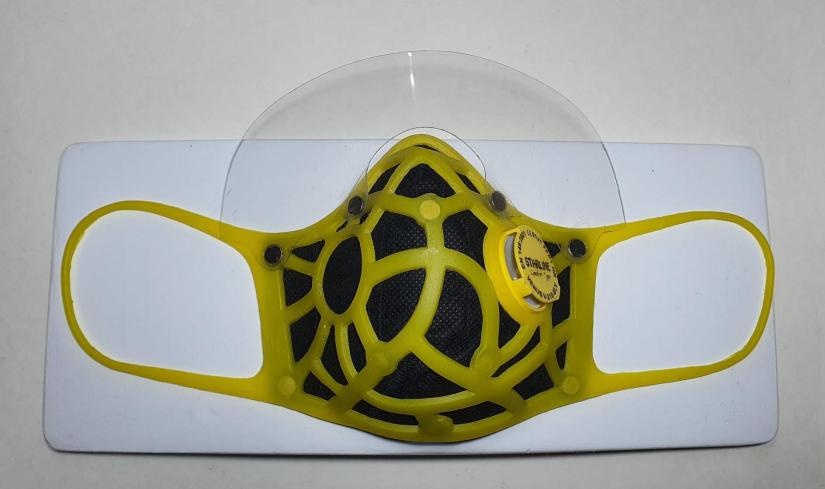

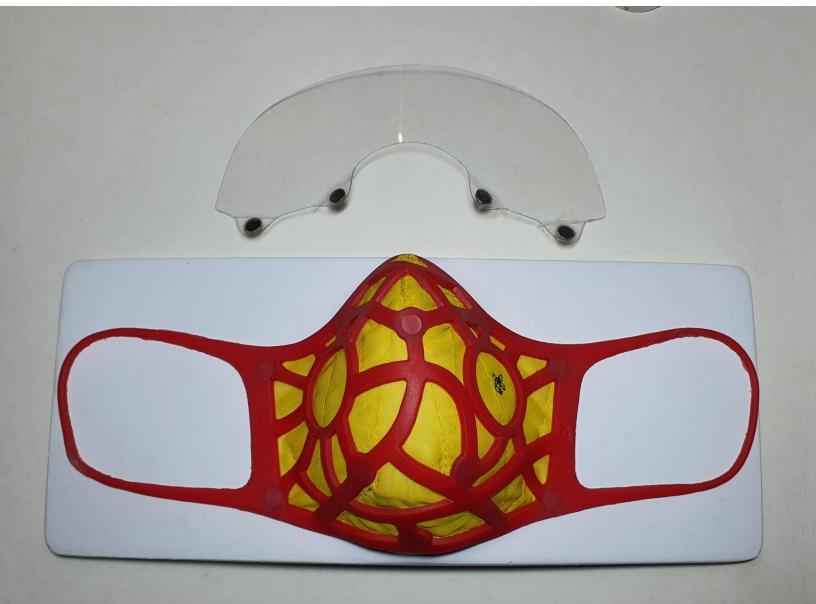

Positive features of the innovation

- Mask is as a medicinal, arty-crafty and can be multifunctional depending on the materials used;
- Reusable mask:
 - The principle of sterilization by washing (all the parts are washable).
 - The structural elements such as a framework, protection mask fabric and eyewear can be fixed to one another by means of standardized permanent magnets/mechanical fasteners and all functional masks and eyewear are completely interoperable with the framework in terms of both external outline and entire structural confluence.
- ☐ The pressure on the environment is minimized;
- ☐ The possibility of performing an infinite number of designs.
